

## Special Facilities for Women in terms of Safety, Security and Counselling

### **Sexual Harassment/Gender Sensitization Cell:**

In order to ensure safety and security of the girl students, the college has established a Sexual Harassment/Gender Sensitization Cell that keeps a close eye on matters related to eve teasing and sexual harassment and any such activity is severely dealt with. For example, in 2018, some students of the college had registered a complaint against a nearby shopkeeper who used to pass objectionable comments on them. Taking cognizance of the issue, the college grievance cell launched an FIR against the alleged person seeking police action.

### **Psychological cum Career counselling cell:**

The psychological cum career counselling cell of the college conducts regular counselling sessions with the students for their mental health and well-being. The psychological counselling cell has particularly been very active during the Covid-19 lockdown period during which a number of online sessions were conducted with the students to address different psychological challenges that the

Pandemic lockdown brought in its wake. The career counselling cell has equally been busy with the conduct of different career counselling sessions to guide students towards a better future.
